

Newell and Grugan Win Fourth of July Tournament

DEFEAT WILLIAMS AND WHITNEY IN ONE OF THE MOST EXCITING
FIVE-SET MATCHES EVER SEEN ON LOCAL COURTS—
LOSERS MAKE GAME COME-BACK IN THIRD SET.

"Do any of these matches ever go to five sets?" innocently asked a new member of the Narberth Tennis Association last Saturday afternoon along about the end of the second set in the final match for winner's honors in the Fourth of July Tournament.

And forthwith Messrs. Newell and Grugan, who finally won the tournament, and Messrs. Williams and Whitney proceeded to stage one of the best played and most exciting championship matches ever seen on the local courts. Newell and Grugan finally won by the score of 6-3, 6-4, 6-8, 3-6, 6-2, but Williams and Whitney's "come-back" after losing the first two sets was nothing short of sensational.

That third set, which was won by Williams and Whitney after playing 14 games, was a battle from start to finish. The first game, for example, went to deuce no less than 14 times. And again in the fourth game there were five deuces.

Pity the Poor Referee.

At the end of the seventh game the score stood: Newell and Grugan 2 sets, Williams and Whitney 0, and the former had 5 games to the latter's 2 in the third set. It certainly looked then as though a few more minutes would finish the tournament, and Referee Bill Hall began looking around over the courts from his "eminent position," hopeful that he might soon be down on the ground once more and playing a little tennis himself. But poor Bill! That Williams and Whitney combination had no compassion on him at all. For they proceeded to win the eighth game, and then the ninth, and then the tenth, and then the eleventh, bringing the game score to 6-5 in their favor. Newell and Grugan won the twelfth game, but then their opponents gathered in the next two and won the set, 8-6.

The fourth set, although closely contested, went much more quickly and was won by Williams and Whitney, 6-3. Newell and Grugan "came to the bat" in the fifth set determined to "do or die," and they certainly did "do." They won the first three games, lost the fourth, won the fifth, lost the sixth, and then gathered in the seventh and eighth and—set, match and tournament championship.

TENNIS ASSOCIATION PLANNING
ANOTHER SOCIAL AFFAIR TO
BE HELD IN ELM HALL
ONE WEEK FROM NEXT
FRIDAY NIGHT

Members of the Narberth Tennis Association, their wives, and their friends are warned not to schedule their vacations to include Friday evening, July 30. For on that date the Association will give a shirt waist dance.

Chairman Pattison, of the Entertainment Committee, is already arranging an interesting program, including one special feature which he says will make a big hit with all tennis players.

Members will be supplied with tickets and all other details of the affair this coming week.

The Ladies' Committee of the Association also wishes to announce that it has planned a masque ball for Halloween, Saturday evening, October 30, in Elm Hall.

BAG SOME BIG GAME IN A
MERION DRIVE AGAINST
SPEEDERS.

CIVIC ASSOCIATION GETS OWN
DIRECTORS IN NET SET
FOR MOTORISTS.

WILL FAVOR NO ONE.

Any hewing that is going to be done at Merion is going to be done "to the line" and the chips can fall where, when, how and why they will, especially with regard to speeding motorists.

As a result, it is said, a number of prominent residents of that famous suburb will shortly have an appointment with the "Judge" and it is also stated that among them are members of the Board of Directors of the Merion Civic Association.

This is "coming back" with a vengeance, because the appointment with the "squire" mentioned is a direct result of a campaign being waged by the Civic Association itself against all who exceed the speed limits on its almost perfect roads.

Two special policemen have been placed on the highways of the Main Line suburb, and on one day last week names of 49 speeders were turned in. It is the determination of the Civic Association that all of them will be fined.

How earnest Merion officials are about it comes from the fact that 27 of the 49 have been found to be residents of the community, including some of the best known men and women of Merion.

"We are determined to stop this automobile speeding, which has gone beyond all limits," said Edward Bok, president of the Merion Civic Association, "and there will be no remittance of fines either. High and low will be dealt with the same. I understand that last week three of the directors of the Civic Association were caught; very well, they will be dealt with the same as the others.

"A half-mile 'speed run' is now being laid out in Merion and the two special policemen will be detailed to report any violations of the State law. Merion will hereafter be a 'trap' and will so become known. But speeding is to be stopped before serious accidents occur and to prevent the beautiful roads from being torn up by reckless driving."

THE FIRESIDE

The first game of the second series of baseball will be played this afternoon at Ardmore, when Narberth lines up against St. Dennis.

Mr. and Mrs. T. R. Manchester, of 441 Woodbine avenue, were very pleasantly surprised when Mr. and Mrs. B. M. Mowery, accompanied by Mr. and Mrs. N. T. Segar and daughter, Jane, motored from Mechanicsburg to spend the week-end with them.

Mr. and Mrs. J. T. Darlington entertained over the week end Mr. Darlington's uncles and cousins, Mr. Martin Darlington and daughter, Edith, of Arcadia, Missouri, and Mr. Wedlin and daughter, Ruth, of Seattle, Washington.

ABOUT DAHLIAS.

Perhaps the amateur grower is wondering just what to do at this time in order to have more and better flowers at the proper flowering time, late August to October 1st or the first killing frost.

A great many dahlia tubers are planted in soil that has been formerly used for vegetable gardens and which has been richly fertilized. A soil of about 50 per cent. coal ashes has been found to be the best, as dahlias do not need much nourishment early in their growing season, the idea being to just keep them growing in order that the substance will not all go to bush, at the expense of flowers, later in the season.

There is a time to fertilize, and that is about August 15th, or when the buds begin to form, buds appearing before this time should be pinched off; they will appear again and produce better flowers later. The cooler nights of September make the finer flowers.

If two or more shoots have appeared from a tuber it will be found better to remove all but the strongest stem, so that the strength in the ground will go to make one good stem, rather than several inferior ones. In cases where only two stems are growing nicely balanced, it is possibly safer to allow them to remain rather than risk injuring the plant.

Keep the bed free from weeds, and keep surface of ground raked or hoed, not only to kill weeds, but to moisten and aerate the soil. Do not let the ground cake. Nature will take care of watering for the present.

The Dahlia Show Committee will be glad to answer questions to the best of their ability and experience as amateur growers, if letters are addressed to Box No. 118.

Neighbor Merion Wars on Speeders

Merion is after all who exceed the automobile speed limit. Two special policemen have been placed on the highways of this Main Line suburb with the result that on one day last week the names of forty-nine speeders were turned in, and all will be fined.

That the Merion officials are in earnest is shown by the fact that of the forty-nine reported, twenty-seven are residents of Merion and not a few are among the best known residents of the model suburb.

"We are determined to stop this automobile speeding, which has gone beyond all limits," said Edward Bok, president of the Merion Civic Association, "and there will be no remittance of fines, either. High and low will be dealt with the same. I understand that last week three of the Directors of the Civic Commission were caught—very well; they will be dealt with the same as any others. A half-mile 'speed run' is now being laid out in Merion, and two special policemen will be detailed to report any violations of the State law. 1. National Americanism Commission. One of the most important recommendations of the National Convention was that a National Americanism Commission be created "to endeavor to realize in the United States the basic ideal of the American Legion of 100% Americanism through the planning, establishment and conduct of a continuous constructive educational system designed to:

(a) Combat all anti-American tendencies, activities and propaganda.

(b) Work for the education of immigrants, prospective American citizens and alien residents in the principles of Americanism.

(c) Inculcate the ideas of Americanism on the citizen population, particularly the basic American principle that the interests of all the people are above those of any special interest or any so-called class or section of the people.

(d) Spread throughout the people of the nation information as to the real nature and principles of American Government.

(e) Foster the teaching of Americanism in all schools.

EXTRAVAGANCE IS UN-AMERICAN

Thrift is the expression of real patriotism in these days just as it was in the period of the war. That warning and appeal has just been issued to the American people by the National Association of Credit Men in the form of a letter directed from New York to each of its members. "The danger of industrial death in which the people of America are now participating, should cease before they have to pay the piper," the appeal declares in urging the American people to desist from their "rampage of extravagance."

"The extravagance of our people since Armistice day is one of those psychological phenomena to which man is subject. During the war we sacrificed gladly, but with the cessation of hostilities, the restrained feeling broke loose and we went on a rampage of extravagance such as never before has been exhibited in the land.

"This nation is sound fundamentally and this soundness will continue if people will give up their folly, will become more diligent, will work as human beings should work during a time of stress and strain. Thrift is in our opinion the expression of real patriotism in these days just as it was in the period of the war. The people who spend recklessly are losing sight of the nation's traditions; indeed they are endangering our institutions which some low spirits we are harboring are secretly plotting to destroy.

"We should practice and preach constantly, declaring that for ourselves we shall do our best to stop this insanity and bring to a close the melodrama of extravagance that is casting fear into the hearts of the people and producing results that are immoral and destructive.

"Prices can be lowered by economies practiced all along the line if labor as well as capital will do its part. 'Watch the price' has been our watchword for months. Here has been the chief danger point in our situation and we welcome anything that will keep prices from soaring to a point from which violent reaction would inevitably bring on a sudden collapse in our structure."

The stand taken by the National Association of Credit Men on the economic situation has been previously expressed in co-operation with the campaign of the Savings Division of the Treasury Department, for it was realized that thrift and saving could not produce an adequate economic effect unless the savings gained were safeguarded in safe and productive investments. Such investment is provided by the savings securities of the Government, War Savings Stamps and Treasury Savings Certificates, designed to obviate the mistaken policy of "saving at the spigot and wasting at the bung-hole."

Fraternity— An Americanism

By S. ROBERT ROSS.

(Continued from Issue of June 26.)

There are those who have come among us, throughout the Nation, who are ignorant of the real meanings of fraternity or who have been misinstructed in the real meanings of Americanism. To those of them who are amenable to our laws and to our order of things we extend a hearty welcome. And we as Americans have our duty toward these people. We must help them to understand fraternity—by a generous, kindly attitude toward them we must instruct them properly in the duties and meanings of Americanism—and we will make good citizens of them, to our benefit and their happiness.

To those of them who come with the purpose of changing our ways, and offering us for the change the untried principles of fanatics who see in their own ravings the panacea of all world errors, we extend a welcome reserved in pity and sympathy, hoping that through the fraternity of our attitude toward them they will soon be convinced of the fallacy of the propaganda they preach and turn to us seeking the big truth—Americanism.

To those of them who come with the avowed purpose of forcing us to accept the principles of government too new—too unsound to prove to be anything but ultimate failure—and of forcing us to accept these principles through any and every diabolical means which come to hand—to them we extend a hearty invitation to go back whence they came.

While we must teach all who come to us to the end that good citizenship is elevated by the presence of the newcomers—there is no need of retarding their growth and development by the voice of radical fallacy. Nor can we afford to permit the poisoning of the minds of the future leaders of the country by the whispering of insidious propaganda. There is no place in America for the Anarchist, the Bolshevik, the Nihilist, the Red Socialist, and the like. It is safer and more prudent to return them to their kind and to complete their education in Americanism through a correspondence course.

Fraternity is too precious a gift to offer the ungrateful.

Americanism is too precious a gem to cast before swine.

FACTS WHICH EVERY MOTORIST SHOULD KNOW.

Many changes having been made in the Motor Laws of the Commonwealth of Pennsylvania at the 1919 Legislative Session, it is deemed advisable to bring to the attention of the motoring public the salient points in which they would be most vitally interested.

All motor vehicles must be registered with the State Highway Department before their operation on public highways; non-residents may operate vehicles in Pennsylvania for the same period of time granted by their State to residents of Pennsylvania, but such exemption shall not apply to commercial vehicles owned by foreign corporations or individuals used in this State more frequently than one (1) round trip in any one week nor to the operators thereof.

Application for registration to be made upon blank forms prepared and furnished by the State Highway Department; no other forms acceptable. Application for registration of motor vehicle does not carry with it right of owner to operate unless accompanied by application for operator's license. Operator's license upon application issued to owners free; all others, \$1.00.

To insure prompt delivery of license, make correct answers to all questions in application. Remit proper fee. Do not guess your manufacturer's or motor number. If in doubt, see the local dealer for your vehicle who can inform you where these numbers are to be found. Do not guess the horse power, but use the formula given in the law. Pleasure motor vehicles are registered according to exact horse power, the State Highway Department taking the fractional part of a horse power in all cases. The accepted horse power for the registration of motor vehicles propelled by steam or electricity shall be that given and certified to by the manufacturer.

Requirements of Operator.

Licensed operator must be sixteen (16) years of age or over and paid driver must be eighteen (18) years of age or over; they must have had at least five (5) days' experience in the operation of a motor vehicle, and must not be physically and mentally incapacitated. Any person who has lost the use of one hand or both, or who has lost the use of both feet, or whose eyesight is so impaired that with the aid of glasses he cannot distinguish substantial objects clearly at a distance of one hundred and fifty (150) feet, or who shall have less than twenty (20) per centum of normal vision, or who have less than two (2) per centum of normal hearing, shall be considered physically incapacitated, and cannot be licensed to operate a motor vehicle. Physical or mental incapacitation does not prevent the registration of a motor vehicle by an owner. Special permits to be issued upon application to those having lost the use of one hand only, upon receipt of evidence or demonstration showing that applicant has had sufficient experience in the operation of a motor vehicle.

Any person operating his or her employer's motor vehicle at any time shall be termed a paid driver.

All certificates of license are not valid until signed by licensee or licensees.

Learner's Permits issued to persons over sixteen (16) years of age to operate motor vehicles are for a period of thirty (30) days, but shall be valid only when learner is accompanied by a licensed operator.

Heavy penalty for misstatement of facts in application. Registration plates must be rigidly attached, one on the front, the other on the rear of motor vehicle. They shall be parallel to the axles, shall not be underneath any part of the body more than twelve (12) inches from the rear end thereof, shall not be covered, obscured, bent, altered or defaced, in any manner, and the lower edge of the rear plate shall be not less than fifteen (15) inches above the ground. The rear plate to be illuminated at night. Plates shall be kept free from oil, grease, dirt, or other substance likely to impair their legibility.

In the event of the loss of one or both registration plates, or should a plate or plates be so defaced that the number thereon is illegible, it shall be the duty of the owner to apply to the State Highway Department for new plates within forty-eight (48) hours of his discovery of the loss or defacement of such plate or plates, thereby avoiding arrest. Old plate or plates to be returned to the State Highway Department.

THE UNPARDONABLE SIN.

To live in a town,
To make a living off it, or out of it,
To educate your children in it,
To get everything you possibly can out of it,
And put absolutely nothing into it—
The Plan.

PENNSYLVANIA MOTOR LAWS.

(Continued from Page 2.)

Do not sound horn, bell, or signal device unnecessarily, but give reasonable warning of your approach to safe-guard others.

Do not operate motor vehicle when under the influence of intoxicating liquor, any narcotic or habit producing drugs, or permit other persons to operate your motor vehicle in a like condition. It may mean heavy fine or revocation of license, or both.

Do not fail to render assistance after injuring person or property and, upon request, give your name and address. Failure to do this may cause your registration to be revoked.

Do not use muffler cut-out in any city, borough or incorporated town.

Do not use chains or other devices projecting more than one (1) inch on tires.

Upon the transfer of ownership, or the destruction of any motor vehicle, the registration shall expire. If motor vehicle is sold the original owner shall remove registration plates and notify the State Highway Department within forty-eight (48) hours, giving name and address of purchaser.

Upon transfer of ownership, the owner may upon application register another motor vehicle upon payment of transfer fee of \$1.00. Provided, however, That such motor vehicle is of equal or less horse power or classification than that previously registered, or upon payment of a fee of one (\$1) dollar and the difference between the fee originally paid and that due, if motor vehicle be properly registered in a higher class.

Do not remove, obliterate, or alter manufacturer's number, or engine number on motor vehicles.

Do not operate your motor vehicle as a common carrier (jitney) without approval and certificate of the Public Service Commission.

It is declared a felony to wilfully and maliciously burn, or cause to be burned, or to set fire to, to attempt to set fire to, any motor vehicle. Maximum penalty, fine of \$1,000 and imprisonment of five (5) years. (Pennsylvania Laws 288, 1919.)

(To be Continued Next Week.)

Use Street Addresses and Buy Your Stamps in Narberth

Our citizens are urged to remember that now that we have house-to-house delivery of mail, street addresses should be used in addressing all mail for delivery in Narberth. The only exceptions to this rule will be those cases where a few individuals or business concerns have retained their post office boxes.

By making sure that you have the right street addresses you will assist in prompt sorting and delivering of mail.

Another thing—do not forget to buy your postage stamps and postal cards at our local post office. We do not want to let the receipts of our local once slump. A little thoughtfulness on the part of our residents in this connection will keep the receipts at our local post office up to normal.

Fall Flower Show, Sat- urday, September 25th

Dahlias, Asters, Cosmos, Snapdragons, Zinnias, Vegetables Classes for garden vegetables grown by Narberth gardeners will be added to the list of exhibits for the Fall Flower Show in Elm Hall.

Many vegetable seeds can be planted during July and August to be gathered in late September in time for the show. Watch Our Town for list of classes and also information on What to Plant and When to Plant.

Shirt Waist Dance To Be Given July 30

TENNIS ASSOCIATION PLANNING
ANOTHER SOCIAL AFFAIR TO
BE HELD IN ELM HALL
LATTER PART OF
MONTH.

Members of the Narberth Tennis Association, their wives, and their friends are warned not to schedule their vacations to include Friday evening, July 30. For on that date the Association will give a shirt waist dance.

Chairman Pattison, of the Entertainment Committee, is already arranging an interesting program, including one special feature which he says will make a big hit with all tennis players.

Within a week or ten days members will be supplied with tickets and all other details of the affair.

The Ladies' Committee of the Association also wishes to announce that it has planned a masque ball for Halloween, Saturday evening, October 30, in Elm Hall.

When the train came in back in 1910

TEN years ago you might have seen one or two automobiles waiting outside the station, when the weather was pleasant.

Today the square is crowded with them. And most of the cars you generally see there are moderate-price cars.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.

ROYAL CORD—NOBBY—CHAIN—USCO—PLAIN

Anybody who tells you that owners of moderate-price cars are not interested in the quality of their tires has never met very many of them.

We come in contact with the small car owner every day and we have found that he is just as much interested as the big car owner.

There is one tire, at least, that makes no distinction between small cars and large cars so far as quality is concerned—the U. S. Tire.

Every U. S. Tire is just like every other in quality—the best its builders know how to build.

Whatever the size of your car, the service you get out of U. S. Tires is the same. It isn't the car, but the man who owns the car, that sets the standard to which U. S. tires are made.

We feel the same way about it. That's why we represent U. S. Tires in this community.
